

Medical Insurance Information

At times, some dental procedures may cross over into a medical/billing insurance category. As a precaution, we ask our patients to provide us information on their medical insurance for such instances that this may occur. Having this information on file ahead of time allows us to help cost efficiency for an easy transition in your appointment.

By keeping this on file, it will be your responsibility to inform us of any changes that may occur in coverage.

If you have any questions, please ask the front desk and we will be glad to help you.
